COLLEGE DEPARTMENT.

REQUISITES FOR ADMISSION.

Applicants for admission to the Freshman Class, must sustain a good examination in the following studies:

GREEK.

First four books of Xenophon's Anabasis; first three books of Homer's Iliad, or an equivalent; Greek Grammar and Prosody.

LATIN.

Three books of Caesar's Commentaries; Bucolics of Virgil, and six books of the Æneid; four Orations of Cicero; Latin Grammar and Prosody; and twelve lessons in Prose Composition.

MATHEMATICS.

Arithmetic; Algebra, to Equations of the Second Degree.

ENGLISH.

English Grammar; History of the United States; Modern and Ancient Geography.

Candidates for admission to the Freshman Class, are offered, as a matter of convenience to them, a partial examination one year previous to matriculation. At this examination, the candidates must be prepared, in the whole of the following subjects:

ENGLISH: Geography, Grammar, and History of the United States.

GREEK: Xenophon's Anabasis, one book; Grammar, except prosody.

LATIN: Cæsar, four books; Cicero, three orations; Grammar, except prosody.

MATHEMATICS: Arithmetic; Algebra, Olney's Elementary and Equivalent.

In this examination no conditions will be imposed, but a failure in any study will subject the student to a re-examination in the department to which the study belongs.

Examination on the remaining requisitions, as prescribed above, will take place the following year.

If candidates prefer, they can be examined, as heretofore, in all the studies at once.

Candidates for advanced standing are examined in the above studies, and in those that have been pursued by the class which they purpose to enter; and, if from other colleges, they must furnish certificates of regular dismissal.

Students failing to maintain proper rank in any branch during the course, will be subjected to conditions which must be made up, before they can be entitled to a degree.

Students will not be permitted to enter the Senior Class, until all conditions upon previous work are removed.

Ladies will be allowed to elect equivalent studies being pursued in the college, for Calculus, Surveying, Analytical Chemistry, and Blow-pipe Analysis.

Examinations for admission will be on Thursday after Commencement, and on Tuesday before the opening of the First Term of the year. The examinations commence at 9 o'clock A. M.

BUCHTEL COLLEGE.

The corner-stone of this Institution, bearing the inscription, "CENTENARY OF UNIVERSALISM IN AMERICA, 1870," was laid July 4th, 1871. The College was opened for the reception of students on Wednesday, September 11th, 1872.

LOCATION.

Its location is desirable and fortunate. The city of Akron is beautifully situated in the midst of hills and valleys, having direct communication by railroad and telegraph with the principal cities and towns of the State and country. It is highly favored with an agreeable and healthful climate.

Its citizens are intelligent and enterprising, hospitable and deeply interested in the educational and moral culture of the young. They have already proved by their active interest and generosity that they will do their utmost to sustain and foster Buchtel College.

BUILDING AND GROUNDS.

The College Building is two hundred and forty feet long, fifty-four feet wide, and five stories high. Its style of architecture combines the Doric, Gothic and Norman. It is a grand structure of symmetrical and harmonious proportions. Its lecture, reading and students' rooms, its dining hall, cabinet, library, laboratory and gymnasium, are light, airy and ample, furnished with the modern and most improved conveniences.

The building is warmed by steam, lighted by gas, and supplied with good water.

The site of the College is high, affording from its observatory one of the most extensive and delightful prospects in Ohio.

The grounds are spacious, being ornamented with walks, trees and hedges.

ITS NAME AND PURPOSE.

The Institution was named Buchtel College in honor of John R. Buchtel who has consecrated his life and wealth to its support and welfare. It is the purpose of the Trustees and friends to make it a **FIRST-CLASS COLLEGE**, opening to students of both sexes equal opportunities for *thorough and liberal* education.

They welcome the fact as auspicious, that the leading colleges in our land are endeavoring to raise the standard of liberal learning. It is the aim of Buchtel College to be faithful in this noble work of promoting sound scholarship and refined culture, to become, indeed, an Institution of Art and Letters, where the highest type of mental instruction and moral training will be imparted.

With this purpose in view, the curriculum of studies adopted, embraces:

First. A complete Classic Course of four years, equal to that of the best classical Institutions in the country.

Second. A Scientific Course of four years.

Third. A Philosophical and Engineering Course of four years.

Fourth. A Preparatory and Normal Course, to fit students for college, and for teaching, affording them useful Academic instruction.

ELECTIVE COURSES.

Students not desiring to pursue any of the regular courses specified, may select such studies as they please from those being pursued by the regular classes, and on leaving college will receive Certificates of rank and advancement made.

LECTURES.

- RESHMAN CLASS. On Health and Habits of Study.
SANDMORE CLASS. On Physical Science.
HOB CLASS. On English and Classical Literature.
SENIOR CLASS. On Natural and Revealed Religion.
NORMAL CLASS. On Education and Methods of Teaching.
-

BIERCE LIBRARY.

By the liberal donation of General L. V. Bierce, of Akron, and other friends of the College, an elegant and spacious room has been fitted up for a Library. It has already been furnished with many volumes of valuable books. It has more for still more.

READING ROOMS.

There are two Reading Rooms, one for the gentlemen, and the other for the ladies, well supplied with newspapers and magazines.

APPARATUS AND CABINET.

The College owns a good Philosophical and Chemical Apparatus, of the latest and most approved kind. It has a Laboratory, open to students, well furnished with apparatus for making chemical experiments and analysis. A valuable Cabinet of Minerals is also being furnished the College.

NATURAL HISTORY ROOM.

This is an attractive room. The specimens are unique, and many of them rare. These are accurately classified and tastefully arranged, exhibiting the useful and beautiful.

COMMENCEMENT.

Commencement will be held on the last Wednesday in June. On two days before Commencement, addresses and orations will be delivered before the College by persons invited from abroad.

DEGREES.

The degree of Bachelor of Arts will be conferred on students having completed the Classical Course.

The Degree of Bachelor of Science will be conferred on those having completed the Scientific Course.

The Degree of Bachelor of Philosophy will be conferred on those having completed the Philosophical Course.

RELIGIOUS OBSERVANCE.

Students are required to attend morning prayer and reading of the Scriptures in the Chapel.

All students are required to attend regularly some place of religious worship on the Sabbath. Students can select their own church for Sabbath worship.

The College is religious, but in no sense *sectarian*. It has to stand firmly on the basis of sound morality and Christian principle.

BOARDING ACCOMMODATIONS.

The College affords ample and suitable conveniences for boarding one hundred and fifty students. It is desired that students, so far as possible, room and board in the College building. Teachers and students sit at the same table. Special care is exercised over the health, habits and manners of students. Their highest good and constant growth in virtue and wisdom, are sought with earnest solicitude.

RECORD OF MERIT.

A daily record is kept of each student's standing in recitation and deportment, and of all absences and irregularities. An average of each term is made at its close, which may be examined by committees, trustees, parents and friends of the College.
