Review and Update of AKR for 2022-2023:

Neal gave a presentation on current UA Communication methods.

Neal noted that Yammer has been tested but not in production.

Eli presented on Viva Apps (Engage and Connections):

Engage: Essentially Yammer, but nested within Teams.

Connections: A company intranet platform.

Eli gave a presentation of Viva Engage functionality.

Viva Connections – New MyAkron Portal: Will open after holidays for preview, should be fully functional by Workday Go-Live in April 2023. The MyAkron portal for employees will be decommissioned.

Viva would allow users to customize their communications.

Questions:

- Bill had some concerns about how Viva can add complexity to communications, and was curious how it would be ensured that people would see what they are supposed to.

- Aimee asked if it would replace the Listservs for internal groups. Would the administration of the Viva sites be able to be easily transferred? John noted how it would be difficult to get rid of lists due to external constituents. Mailing lists seem like they would not be replaced by Viva.

- Fari: Is there a way to "broadcast" a message to other departmental Viva users? Eli stated that the new MyAkron portal would have the functionality.

- The general concern regarding Viva seemed to revolve around acceptable use, privacy, and usage rights.

- The primary suggested goal was to identify, and document, the communication technology in current use, then compare it with near-peer institutions.
